

MEETINGS OF COUNCIL

Tuesday, June 19, 2018

7:00p.m. Corporate Services Committee
 Followed by: Community Issues Committee
 Followed by: Planning and Protection Committee

2018 HYDRANT FLUSHING PROGRAM

The Public Works Department will be continuing our intensive hydrant flushing program and will be conducting fire flow testing throughout Carleton Place until mid-July.

During this time, it is possible the water may appear slightly discolored within the general area that flushing is taking place. Should this occur, turn on your cold water tap and allow the water run for 20-30 minutes.

Should you have additional concerns, please contact the Public Works Office, 613-257-2253.

INFORMATION SESSION FOR MUNICIPAL ELECTION CANDIDATES

Have you filed your nomination papers or are you considering running in the 2018 municipal election this fall? Find out what you need to know at an upcoming candidate information session.

Lanark County municipalities (including the Town of Smiths Falls) are hosting two free information sessions for potential candidates.

These sessions will be beneficial to both new and experienced candidates. Attendees will gain a better understanding of how municipal elections work and what to expect if elected.

Session 1 **Thursday, July 5, 2018**
 6:30 pm – 9:30 pm
 Lanark County Administration Building
 99 Christie Lake Road, Perth

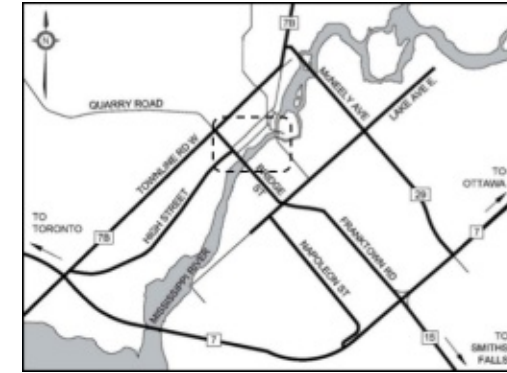

Session 2 **Wednesday, July 11, 2018**
 6:30 pm – 9:30 pm
 Town of Carleton Place Arena (upstairs)
 75 Neelin St. Carleton Place

For further information, please contact Leslie Drynan, Clerk/Deputy CAO at ldrynan@lanarkcounty.ca or (613) 267 – 4200 ext. 1502.

MUNICIPAL CLASS ENVIRONMENTAL ASSESSMENT FOR REPLACEMENT OF THE CENTRAL BRIDGE

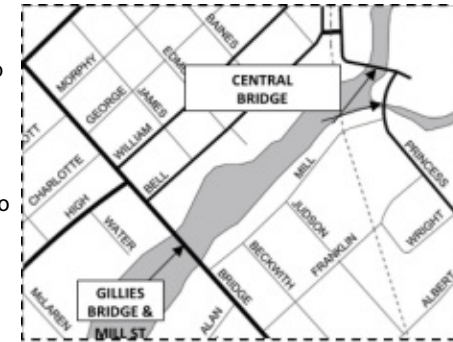

The Central Bridge, located on Bridge Street in downtown Carleton Place, is the central link across the Mississippi River. The bridge was constructed in 1928 and rehabilitated in 1983. Recent inspections of the bridge identified structural deficiencies and insufficient load carrying capacity.

The Town of Carleton Place is considering options to replace the Central Bridge to address the identified structural deficiencies and to serve the Town for years to come. The project works will also include consideration for adding a walkway and undertaking repairs to Gillies Bridge, and potential widening of the other single lane bridge further to the east, with relocation of utilities undertaken as required.

The project is being completed as a **Schedule “C”** project in accordance with the **Municipal Class Environmental Assessment** (October 2000, amended in 2007, 2011 & 2015). As such, extensive public and technical agency consultation will play a key role in developing the study recommendations.

Preliminary project information was presented at the first Public Consultation Centre (PCC), held on May 16, 2018. A second PCC is being scheduled to present general alternatives being considered for replacement of the Central Bridge and to gather more input and feedback from the public. Similar to the first PCC, the 2nd PCC will be held as an informal “Open House” with materials pertaining to the study on display and members of the project team on hand to answer questions and discuss issues related to the project.

Public Consultation Centre #2:
Date: Wednesday June 27, 2018
Time: 4:00 pm to 7:30 pm
Location: Town Hall – Auditorium
 (175 Bridge Street, Carleton Place, ON)

If you would like more information prior to the public consultation centre or to be added to the study mailing list, please contact one of the following members of the Project Team:

Town of Carleton Place
 Paul Knowles, P.Eng., Project Manager
 Tel: 613-257-6207
 E-mail: PKnowles@carletonplace.ca

R.V. Anderson Associates Limited
 Andrew McGregor, MCIP, RPP, Senior Planner
 Tel: 905-685-5049
 E-mail: AMcGregor@rvanderson.com
