For information about garbage collection in Carleton Place, please visit our website, <http://carletonplace.ca/wastemanagementp13.php>

WATER SOLICITORS

The Carleton Place Public Works Department has received numerous calls from residents regarding companies

going door to door that have implied an association with the Town regarding water quality testing and sales of in home water treatment systems and some have also claimed to be inspecting water mains and services. The Town of Carleton Place has no affiliation with any of these companies and the only organization that is a representative of the Town is the Ontario Clean Water Agency (OCWA) and any testing conducted by OCWA is for the confirmation of water quality purposes only.

We encourage residents to be aware of these organizations.

Should residents have concerns or require further information about their drinking water please contact the Public Works Department at (613) 257-2253.
