

MEETINGS OF COUNCIL

Tuesday, November 20, 2018

7:00 p.m Corporate Services Committee

Followed by: Community Issues Committee

Followed by: Planning and Protection Committee (if required)

WINTER PARKING RESTRICTIONS

Any time Environment Canada forecasts a snowfall of 7 cm or more an overnight parking ban will be in effect. This includes any forecast that calls for a range of snowfall exceeding 7 cm (i.e. 5 to 10 cm).

When this ban is in effect, parking is prohibited on all town streets between 11 pm and 7 am to allow for snow clearing operations. Vehicles parked in violation of the ban will be ticketed and towed to the Public Library Parking Lot at 101 Beckwith St.

Sign up on the Town's website to receive notification by email when an on street parking ban has been issued. Notification will also be posted on the home page of the municipal website (<http://www.carletonplace.ca/>), Twitter (www.twitter.com/Carleton_Place) and Facebook (www.facebook.com/carletonplacetownhall).

NOTICE OF 3RD PUBLIC CONSULTATION CENTRE

MUNICIPAL CLASS ENVIRONMENTAL ASSESSMENT FOR REPLACEMENT OF THE CENTRAL BRIDGE

The Central Bridge, located on Bridge Street in downtown Carleton Place, is the central link across the Mississippi River. The bridge was constructed in 1928 and rehabilitated in 1983. Recent inspections of the bridge identified structural deficiencies and insufficient load carrying capacity.

The Town of Carleton Place is considering options to replace the Central Bridge to address the identified structural deficiencies and to serve the Town for years to come. The project works will also include consideration for additional pedestrian facilities and repairs to Gillies Bridge, and potential widening of the other single lane bridge to McArthur Island further to the east, with relocation of utilities undertaken as required.

The project is being completed as a **Schedule "C"** project in accordance with the **Municipal Class Environmental Assessment** (October 2000, amended in 2007, 2011 & 2015). As such, extensive public and technical agency consultation will play a key role in developing the study recommendations. Preliminary project information and planning alternatives were presented at the 1st and 2nd Public Consultation Centres.

A 3rd Public Consultation Centre (PCC) is being scheduled to present alternative design concepts of the preferred solutions for replacement of the Central Bridge, improvements to the McArthur Island bridges, and relocation of the trunk watermain.

The PCC will be held as an informal "Open House with materials pertaining to the study on display and members of the project team on hand to answer questions and discuss issues related to the project.

Public Consultation Centre #3:

Date: Monday November 19, 2018

Time: 4:00 pm to 7:30 pm

Location: Town Hall – Auditorium (175 Bridge Street, Carleton Place, ON)

If you would like more information prior to the public consultation centre or to be added to the study mailing list, please contact one of the following members of the Project Team:
