

SPRING

2019

Carleton Place CERV

2019 Spring Edition

Welcome to the 2019 Spring edition of our Carleton Place CERV Newsletter. It looks like spring is finally appearing as the snow slowly melts. Hopefully, we can look forward to some much milder weather in the near future.

As your new Community Emergency Management Coordinator, I am looking forward to meeting you at our Special Spring CERV Training Session, scheduled for Saturday, May 25, 2019 here at the Fire Hall at 15 Coleman Street from 10:00 a.m. to 12:00 noon. This session will be an opportunity for me to meet you and the other Carleton Place CERV members as well as to show you our firefighting facility and equipment.

The Upper Hall of the Fire Station, in the case of an emergency is the municipality's emergency operations centre and for the seminar, the room will be set up as if an emergency was in process.

Refreshments will also be available for this seminar so I hope to see you there.

Spring Flooding

At the time of the production of this Newsletter, it does not appear that the spring runoff of water will affect Carleton Place this year, however, weather conditions can quickly change. Valuable information regarding floods can be accessed by visiting the Mississippi Valley Conservation Authority web site at www.mvc.on.ca Plans are also in the works to hopefully hold a CERV seminar on flooding later this year.

Dates to Remember

Saturday, May 25, 2019 – Emergency Operations Saturday, May 25, 2019 Carleton Place Spring Seminar

Monday, July 1, 2019 is our Annual Fire Aid/Lost Child Tent on Canada Day at Riverside Park

Saturday, August 3, 2019 Downtown Carleton Place Event on Bridge Street. In cooperation with the County of Lanark is our emergency management information tent.

Final Comments

As always, detailed and valuable emergency management information can be found by visiting either the Town of Carleton Place web site at www.carletonplace.ca or the Office of the Fire Marshal and Emergency Management site at www.emergencymanagementontario.ca

Regards,

Pascal Meunier, Fire Chief and CEMC
