What's a PFD?

PFD stands for Personal Flotation Device. Most people call PFDs "lifejackets", but lifejackets have greater buoyancy and are designed to turn most unconscious victims face up. People use PFDs because they are generally less bulky, more comfortable, and come in a wide range of attractive colours and styles. You can even get inflatable PFDs.

Trying to put on a PFD just before capsizing is like trying to buckle your seat belt just before you crash. Set a good example for your children, choose a PFD you like and use it!
