AQUA ARTHRITIS

Arthritis classes offer the same benefits as our regular program with less intensity, a slower pace and an emphasis on modifying movements to suit individual needs, it's a great social environment too!

The goal of our Arthritis program is to improve physical well-being by increasing range of motion, strength, coordination, balance and endurance. A combination of these will help to decrease pain and stress.

This is a therapeutic class and is not intended to replace any prescribed exercises. Please check with your doctor prior to beginning any new exercise program.
